The time period for reply, if any, is set in the attached communication.

Office Action Summary

Application No.

10/578,564

Applicant(s)

KOMOWSKI, MICHAEL

Examiner

SAMANTHA A. MILLER

Art Unit

3749

Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 27 June 2008.
2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-4 and 6-18 is/are pending in the application.
4a) Of the above claim(s) _____ is/are withdrawn from consideration.
5) ☐ Claim(s) _____ is/are allowed.
6) ☒ Claim(s) 1-4 and 6-18 is/are rejected.
7) ☐ Claim(s) _____ is/are objected to.
8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

Attachment(s)

- 1) ☐ Notice of References Cited (PTO-892)
2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
3) ☐ Information Disclosure Statement(s) (PTO/CDC)
4) ☐ Interview Summary (PTO-413)
5) ☐ Notice of Informal Patent Application
6) ☐ Other: _____
Paper No(s)/Mail Date _____

DETAILED ACTION

Response to Amendment

Receipt of applicant's amendment filed on 6/27/2008 is acknowledged.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 6-18 rejected under 35 U.S.C. 102(b) as being anticipated by KOMOWSKI (6,319,112).

KOMOWSKI teaches:

1. A drum flap (410) having a part-cylinder surface (Fig.1), which forms a first region (inner surface of 435 and 434), two circle segment surfaces (435 and 434) (Fig.14), wherein each circle segment surface forms a second region (outer surface of 435 and 434), an externally surrounding rim (414), which is arranged substantially in two planes (Fig.7), projects outward and serves to bear against correspondingly designed bearing surfaces (Fig.7), at least a second rim (412) (col.5 ll.18-29), and at least one opening (432) in at least one segment (connected to the outer surface of 435 or the second region) of the first region, one or both of the second regions, or a combination thereof, wherein the at least one segment is delimited by the externally surrounding rim (432 is between 414 and 412) and the second rim.

2. The second rim is provided in the first region (being connected to 435, Fig.14) of the drum flap (col.5 ll.18-29).

3. The second rim is provided in the second region (being connected to 434, Fig.14) (col.5 ll.18-29).

4. The second rim is arranged in a plane in which a pivot axis also lies (Fig.7), and projects outward, wherein the plane in which the second rim lies is arranged in an angle between the other two planes in which the externally surrounding rim is arranged (Fig.14) (col.5 ll.18-29).

6. A circular region having a thickness, designed to match the externally surrounding and second rims (thickness of 435 and 434 equal to the thickness of 414 and 412), is provided in a region of the pivot axis (424) (Fig.7) (col.5 ll.18-29).

7. The second rim runs substantially around a third region (436), wherein the third region (436) directly adjoins a lateral surface in a region of the externally surrounding rim or indirectly adjoins the lateral surface in the region of the externally surrounding rim (414) via an intermediate region (region between 435 and 434).

8. The third region (436) is approximately rectangular in form (Fig.7).

9. The planes in which the third region and the intermediate region lie are arranged at an angle not equal to 180° with respect to one another (Fig.7).

10. Two outwardly protruding beating journals (424) are provided on a pivot axis (col.5 ll.18-29).

Regarding claims 11-18, refer to the rejection of claims 1-4 and 6-10.

Response to Arguments

Applicant's arguments filed 6/27/2008 have been fully considered but they are not persuasive. In response to applicant's arguments, refer to the above rejection of the amended claims that address all new subject matter.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR '1.136(a). A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samantha A. Miller whose telephone number is 571-272-9967. The examiner can normally be reached on **Monday - Thursday 8:00 - 4:30**.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steve McAllister can be reached on 571-272-6785. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
